**Subject:** FW: Question from citizen who is moving to Merrick Long Island -

Good morning Steve - I received this inquiry from a citizen who is moving to Merrick. I believe you mentioned that this is where you hail from? Do you know what water supply company serves Merrick? I figure that it probably would be best to put him in touch with the water supplier, to answer the questions that he is asking.

Thanks,  
-Carol-

**Subject:** Moving to Long Island - quick question

Hi Carol,

My family is moving to Merrick NY in a couple weeks, and we're concerned about the drinking water. I've read about the Northrop Grumman Plume situation that has contaminated the Bethpage wells, and i've read that the contamination is spreading.

Do you have a data sheet that you can share with me, or links to studies or other helpful factual information that can help us determine whether we should be concerned about drinking the tap water?

Note that we will have East Meadow water - so perhaps we are unaffected completely. I'm just not sure what to believe.

Thanks,  
Gabe
